

BISHWAJIT KARMAKER

JUNIOR IT / APPLICATION & TECHNICAL SUPPORT

Berlin, Germany · bish.karm123@gmail.com · shamogrik.com/developer

CAREER SNAPSHOT

- B.Sc. in Mathematics plus 360 hours of intensive Full-Stack Web Development training at Le Wagon Berlin.
- Conceived SHAMOGRIK and continue to drive it as a long-running business operations product, from workflow definition through validation, deployment and production troubleshooting.
- Built practical technical experience through sustained work with Python/Django, PostgreSQL/SQL, REST APIs, Next.js/TypeScript, Git/GitLab, Docker, Linux and VPS deployment.
- Several years of professional experience in Germany, including structured operations, SAP-supported merchandise processes, customer communication and reliable teamwork under pressure.

TECHNICAL COMPETENCIES

APPLICATION & SUPPORT

- Web application validation
- Issue capture & reproduction
- Structured technical documentation
- Browser/API troubleshooting

TECHNICAL FOUNDATIONS

- Python / Django - foundational
- PostgreSQL / SQL - foundational
- Next.js / TypeScript / JavaScript
- REST API understanding

TOOLS & WORKFLOW

- Git / GitLab - practical use
- Docker & Linux - practical use
- VPS / production deployment
- Logs, configuration & troubleshooting

PRACTICAL PROJECTS

SHAMOGRIK - Business Operations Web Platform | 2025-Present

Product Ownership & AI-Accelerated Development · Python/Django · PostgreSQL · Next.js/TypeScript · Docker/Linux

- Conceived SHAMOGRIK and continuously define product requirements, operational workflows, permissions, expected behaviour and UI/product direction.
- Drive sustained product iteration through functional validation, regression checks and real operational scenarios; reproduce issues, gather technical evidence and re-check fixes.
- Work hands-on through deployment and production troubleshooting: Docker/Linux, VPS configuration, browser/API errors, logs, database migrations and Git/GitLab.
- Use AI-assisted development as an accelerator for implementation, technical research and debugging.

Linda Art Gallery - Web Project | 2025-2026

- Web project using Django REST Framework, PostgreSQL and Next.js; practical involvement in requirements, functional checking, deployment and troubleshooting.

PROFESSIONAL EXPERIENCE

INTERSPORT Voswinkel / Sport Voswinkel GmbH - Berlin | Retail & Merchandise Operations · 11/2024-Present

- SAP-supported merchandise processes, goods receiving, stock control and structured operational workflows in a live retail environment.
- Customer communication, practical problem solving and reliable teamwork under time pressure.

Flink SE - Berlin | Operations Associate · 2021-2022

- Goods handling and order organisation in a time-critical operational team environment.

Additional Professional Experience - Berlin | 2019-2024

Burger King · McDonald's · KFC · Son Kitchen

- Customer service, cash/payment handling and reliable teamwork in high-volume environments.
